RESILIENCE = COMPETITIVE ADVANTAGE

Resilience is the ability of an organization to absorb and adapt in a changing environment. (ISO 22316)

It is not just a defense mechanism, but mostly a quality that allows to succeed and prosper in the market.

Three core disciplines

Business Continuity

Capability of an organization to continue delivery of products or services at acceptable predefined levels following disruptive incident

Crisis Management

Capability to manage crises, defined as abnormal and unstable situations that threaten the organization's strategic objectives, reputation or viability

Risk and Governance

Capability to manage risk, defined as the effect of uncertainty on objectives, and direct, oversee and hold accountable an organization for achieving its defined purpose

ABOUT

MISSION

Making the world more resilient

E-learning Courses

Learn more about PANTA RAY e-learning courses.

Our e-learning options make it possible to bring themes of strategic importance to a much larger and not merely “technical” audience through engaging contents, an interactive and dynamic structure, a gaming approach and channels suitable for wide diffusion.

The courses can be tailored to the needs of any organization and the resilience objectives that are meant to be achieved.

Exercising the ability to respond to an operational or a reputational incident

•

Organising table-top simulations with the involvement of Board members and executives

•

Supporting the auditing phase

•

Encouraging continuous improvement

•

BUILDING RESILIENCE

PANTA RAY supports its clients in aligning their organizational resilience capabilities to the relevant international standards and industry best practices.

As members of the ISO Working Groups for international standards, we promote a culture of resilience based on the latest developments in the industry.

We do so by analyzing the client's resilience documentation, governance, and practices, in order to assess their level of compliance to international standards. Based on this, we offer our expertise and hands-on experience to support our clients, with methodological consults and practical assistance alike.

Quality review

Assessment of your organizational resilience framework with respect to current international standards

Collecting and analyzing relevant documentation of your current resilience framework

Interviewing key people within the organization, to better understand organizational resilience practices

Producing a point-by-point evaluation within an overall report on the state of the art of your resilience

Guiding the client through the continuous improvement process

BUILDING RESILIENCE

Resilience Maintenance – Methodology

Access our resilience knowledge at any time to help you run your programmes

Conducting an initial Quality Review, assessing existing elements against relevant international standards and best practices

Receiving a list of improvement measures, based on the Review
